39 GHz < frequency band	0,025	0,5	1

Spectrum Fee/ Channel = RFBW (KHz) * [Fee/KHz] * [Service Factor] *
[Reuse Factor] * [Sharing Factor] where:

"Spectrum Fee/ Channel" is the fee payable in respect of a frequency together
with the assigned bandwidth in a communication link. A Frequency Division
Duplex (FDD) link is considered to be two channels;

Radio Frequency Bandwidth RFBW" is the actual bandwidth occupied by
channel;

"Reuse Factor" is the coefficient taking into account the number of times
a frequency is reused in Zimbabwe. To encourage the efficient usage of
spectrum, the ceiling for the chargeable reuse factor is pegged at 8, meaning
that any reuse beyond 8 does not contribute to the spectrum fee.

"Sharing Factor" is the coefficient of the number of users sharing the same
frequency in the same charging area. It is established as follows:

When two users share, a sharing factor of 0,8 shall apply

When three users share, a sharing factor of 0,7 shall apply

When four users share, a sharing factor of 0,65 shall apply

8. Number Fees —

Number fees shall be assigned in blocks of minimum size 1000 or 10 000
depending on the size of the exchange. Operators shall pay an annual fee of
ten cents (US\$0,10) per number for all the blocks allocated.

9. Offences and penalty —

Any annual fee payable in terms of paragraphs 1, 2, 3, 4, 5, 6, 7, 8 and 9
not paid by the due date shall attract a penalty calculated at the ruling banking
rate plus 10% of the payable amount.

Provided that any annual fee not paid within three months after the due
date shall attract a penalty calculated at 100% of the fee payable plus interest
calculated at the ruling bank rate.

Monthly returns shall be submitted on the date of payment of any fees
payable in terms of paragraphs 1, 2, 3, 4, 5, 6, 7, 8, and 9. Failure to submit
monthly returns shall attract a penalty of 1% of the payable amount.
